## PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Big Data Analytics at SRMIST, with a strong interest in transforming data into meaningful insights and building practical technology solutions. Experienced in developing interactive applications, exploring datasets, and applying machine learning concepts through academic projects and undergraduate research. Actively involved in hackathons and technical initiatives, with a focus on continuous learning and solving real-world problems through technology.

## EDUCATION

**B.Tech, Computer Science, Big Data Analytics** 2024 – Present
*SRM Institute of Science and Technology*
GPA: 9.20

**Intermediate, Mathematics, Physics, Chemistry (MPC)** 2022 – 2024
*Sasi Junior College*
Score: 91.2%

**Secondary School Certificate (SSC)** 2020 – 2021
*Sri Chaitanya Techno School*
Score: 74.6%

## RESEARCH EXPERIENCE

**LMm6A – Transformer-based Modeling of RNA m6A Sites for Pan-Cancer Analysis**
*UROP Research Project, Department of Biotechnology, SRMIST | Ongoing*
- Developing transformer-based deep learning models integrating RNA sequence and genomic features to predict m6A methylation sites across 12 cancer types.
- Applying deep learning methods to analyze epitranscriptomic dysregulation in large-scale biological datasets.

## PROJECTS

**NetLearn – Interactive Computer Networks Learning Platform** Present
*React, Vite, Tailwind CSS, Node.js, Express.js, Firebase*
- Developed an interactive Computer Networks learning platform aligned with the SRMIST five-unit curriculum, featuring structured theory, practical learning resources and networking tools.
- Integrated 198 MCQs, 1,000 viva questions and 15 practical experiments to support comprehensive exam preparation and hands-on learning.
- Implemented interactive network topology editing, router and switch CLI simulations, routing demonstrations and subnetting tools; deployed the platform using Firebase Hosting.

**Blood Donation Management System** 05/2026
*MySQL, SQL, DBMS*
- Developed a relational blood donation management system in MySQL and SQL to manage donors, patients, doctors, blood banks, inventory and deliveries.
- SQL queries were used to manage, retrieve, filter data and track blood inventory.

**Smart DSA Visualizer** 04/2026
*AI-Based Interactive Learning System for Data Structures & Algorithms*
- Developed an interactive web application to visualise sorting, searching, tree, and graph algorithms.
- Added step-by-step animations of algorithms to help understand data structures.
- Published the project online and linked learning resources for algorithms.

**Exploratory Data Analysis (EDA) on Employment Data** 10/2025
*Python NumPy Pandas Matplotlib Jupyter Notebook*
- Analysed gender-based employment statistics using Python and visualisation of data libraries .
- Identified useful insights from the cleaned and processed data from the United Nations database.
- Developed visualisations to show employment trends and disparities.

## SKILLS

**Programming Languages**
Python, C, C++, SQL

**Tools & Platforms:**
Git, GitHub, VS Code, Jupyter Notebook, Firebase, Vercel

**Data Analytics & Visualization**
Power BI, Microsoft Excel, Exploratory Data Analysis (EDA), Data Cleaning, Data Preprocessing, Data Visualization, Statistical Analysis

**Libraries & Frameworks**
Pandas, NumPy, Matplotlib

**Databases & Data Warehousing**
MySQL, DBMS, ETL, OLAP, OLTP

**Core Subjects**
Computer Networks, Data Warehousing, Data Mining, Machine Learning,

## ACHIEVEMENTS

**Top 10 Finalist, Aerospanza 2025**
*SRM Institute of Science & Technology*
Designed and presented a UAV-based solution for cultural heritage and wildlife monitoring.

**Finalist, Aarush Hybrid Hack 2025**
*SRM Institute of Science & Technology*
Developed innovative solutions for hybrid energy systems.

**Qualified (Round 4), Astral Web Hackathon 2025**
*SRM Institute of Science & Technology*
Contributed to a team-based web solution evaluated across multiple stages

**Top 15 Finalist – School2Startup (S2S) Ideathon:** Advanced to the Top 15 in the Ideathon by presenting an innovative technology-based solution and participating in the competitive evaluation rounds.

## CERTIFICATES

**Python for Data Science**
Issuer: Infosys Springboard

**Fundamentals of Object Oriented Programming**
Issuer: NPTEL

**Getting Started with Microsoft Excel**
Issuer: Coursera

**Data Analysis in Power BI**
Issuer:Udemy

**Programming in Java**
Issuer: NPTEL

**AI/ML for Geodata Analysis**
Issuer: Indian Institute of Remote Sensing (IIRS), Indian Space Research Organization (ISRO)

## ORGANISATIONS

**Student Member | Directorate of Alumni Affairs, SRMIST** 08/2025 – Present
Directorate of Alumni Affairs (Alumni Relations) Chennai,India
- Collaborated with the Alumni Affairs Club to organize alumni engagement activities and events
- Facilitated communication and coordination between alumni and students to strengthen alumni relations.

**Student Volunteer | Directorate of Student Affairs, SRMIST** 10/2025 – 10/2026
Chennai,India
- Coordinated and supported the organization of campus events, ensuring smooth execution and participant engagement.
- Communicated event details effectively to attendees, enhancing overall event experience.

**ISTE** 04/2024 – Present
ISTE STUDENT MEMBERSHIP ID (TN3961902) Chennai,India
- Engaged in professional development activities to enhance technical and industry-relevant skills as part of the ISTE Student Chapter.

## EXTRA-CURRICULAR ACTIVITIES

Reading narrative stories | Traveling | Photography | Volunteering | Language learning | Puzzles and word building
