Professional Summary

Motivated Computer Science and Engineering undergraduate with hands-on experience in data analysis, programming, and participation in competitive hackathons. Proficient in Python, Java, and big data analytics, with a strong ability to collaborate on impactful technology projects. Eager to contribute analytical and problem-solving skills to a dynamic data science and analytics team, driving innovation and actionable insights.

Professional Experience

Volunteer · **SRM Institute of Science & Technology(Directorate of Student Affairs)** Chennai, India · Oct 2025 - Present

- Coordinated and supported the organization of campus events, ensuring smooth execution and participant engagement.
- Communicated event details effectively to attendees, enhancing overall event experience.

Student Member · **SRM Institute of Science & Technology (Directorate of Alumni Affairs (Alumni Relations))** Chennai, India · Aug 2025 - Present

- Collaborated with the Alumni Affairs Club to organize alumni engagement activities and events
- Facilitated communication and coordination between alumni and students to strengthen alumni relations.

Student Member · **ISTE STUDENT MEMBERSHIP ID (TN3961902)** Chennai, India · Apr 2025 - Present

- Engaged in professional development activities to enhance technical and industry-relevant skills as part of the ISTE Student Chapter.

Projects

Smart DSA Visualizer · <https://smart-dsa-visualizer-vu4r.onrender.com> Apr 2026

AI-Based Interactive Learning System for Data Structures & Algorithms

- Built an interactive web application to visualize sorting, searching, trees, and graph algorithms.
- Implemented step-by-step algorithm animations to improve understanding of data structures.
- Deployed the project online and integrated learning resources for algorithm study.

Exploratory Data Analysis (EDA) on Employment Data · Oct 2025
<https://github.com/saisurya-2406/-employment-to-population-ratio>

Python NumPy Pandas Matplotlib Jupyter Notebook

- Analyzed gender-based employment statistics using Python and data visualization libraries.
- Cleaned and processed data from the United Nations database to extract actionable insights.
- Developed visualizations to highlight employment trends and disparities.

Vibe Coding: AI-Assisted Web Development · Jan 2025
<https://github.com/saisurya-2406/cosmos-chronicles-alive>

AI-Assisted Development Prompt Engineering

- Designed and developed a responsive website using AI coding tools and natural language prompts
- Defined website structure and user experience, iteratively refining AI-generated code for optimal performance
- Utilized tools such as GitHub Copilot and Cursor for rapid UI development and feature implementation.

Education

B.Tech · Computer Science, Big Data Analytics · SRM Institute of Science and Technology	9.02 · 2024 - Present
Intermediate · Mathematics, Physics, Chemistry (MPC) · Sasi Junior College	91.2% · 2022 - 2024
Secondary School Certificate · SSC · Sri Chaitanya Techno School	74.6% · 2020 - 2021

Skills

Programming Languages

[Python](#) [C/C++](#) [Java](#)
[Big Data Analytics](#) [Microsoft Excel](#) [Visual Studio Code](#) [Jupyter Notebook](#) [GitHub](#)

Achievements

Hackathons and Technical Events · SRM Institute of Science & Technology	Jan 2025 - Jan 2026
• Top 10 Finalist, Aerospanza 2025 (SRMIST) – Designed and presented a UAV-based solution for cultural heritage and wildlife monitoring. • Finalist, Aarush Hybrid Hack 2025 (SRMIST) – Developed innovative solutions for hybrid energy systems. • Qualified up to Round 3, Astral Web Hackathon 2025 – Contributed to a team-based web solution evaluated across multiple stages • Participant, DevZero 36-Hour Hackathon (SRMIST) – Collaborated under strict time constraints to design and build technical solutions • Qualified (Round 1), Adobe India Hackathon – Cleared online MCQ & coding assessment, demonstrating strong analytical and programming skills. • Participant, Aarush 2025 – National Techno-Management Fest (SRMIST) – Engaged in technical challenges, including an Astronomy-focused event applying computational thinking.	

Certificates

Python for Data Science · Infosys Springboard	Mar 2025 - Apr 2025
Getting Started with Microsoft Excel · Coursera	Jan 2025
Programming in Java · NPTEL	Jul 2025 - Oct 2025
Fundamentals of Object Oriented Programming · NPTEL	Jan 2025 - Apr 2025

Extra-Curricular Activities

Reading narrative stories
Traveling
Photography
Volunteering
Language learning
Puzzles and word building
